

IQVIA™ INTEGRATED GLOBAL COMPLIANCE SOLUTIONS

Simpler at every step

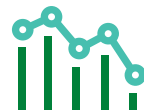

THE SITUATION AND IMPACT

Life sciences companies are changing the way they stay compliant. A proliferation of regulations, products, markets and data sources—combined with intense cost pressures—means that compliance functions must go beyond merely following rules, and deliver more value to the business.

53% of global life sciences CEOs consider **industry regulations** to be a top disruptive business trend

>2000 new regulations issued by the FDA alone since 1998

>20% annual increase in reported adverse events

 outdated, disconnected legacy systems, point solutions, inconsistent data. no single source of knowledge

A NEW VISION FOR COMPLIANCE

Heighten performance and efficiencies. Increase value.

Orchestrate your success across the complete compliance lifecycle. IQVIA Integrated Global Compliance brings you best-in-class, integrated solutions for safety, regulatory, quality and commercial compliance keeping you ahead of change so you can add more value to your business.

LOWER YOUR BURDEN. BOOST OPERATIONAL COMPLIANCE.

Simplify, automate and integrate your compliance response times, accuracy, predictive planning and efficiency. Employ IQVIA's innovative technologies, decades of life sciences experience and advanced analytics—including artificial intelligence (AI) and machine learning (ML)—to glean key insights and make better decisions. Focus more resources on higher value activities.
